

Technical Bulletin #121

#3476 ULTRAFOUNT FOUNTAIN SOLUTION

Ultrafount was developed to work with metal and silver plates and **instantly allows printers to reduce alcohol usage by 50% the first time it's used!** Ultrafount is compatible with alcohol substitutes so printers can run alcohol free, or it can be used with minimal amounts of alcohol so printers can meet EPA, OSHA and other guidelines. **Ultrafount** helps maintain proper pH and conductivity and is especially helpful in humid environments. It works well in continuous dampeners, and is alcohol free.

<u>FEATURES</u>	<u>BENEFITS</u>
<ul style="list-style-type: none"> ● Concentrated solution for presses running metal and silver plates 	Economical – mix 1:32
<ul style="list-style-type: none"> ● Unique wetting agents 	Helps prevent toning; helps ink dry faster. Helps eliminate or reduce alcohol usage.
<ul style="list-style-type: none"> ● Compatible with all presses and dampeners 	Saves money – no need to stock additional products!
<ul style="list-style-type: none"> ● Low V.O.C.'s 	Safe to use; environmentally friendly
