CLEAR GEL ROLLER CLEANER AND DEGLAZER PCN #Y9

Clear Gel is an ideal product for daily cleaning, deglazing and quick color changes - even when going from black to yellow! **Clear Gel** removes calcium and other contaminants from rollers and blankets, and when used regularly, will help keep rollers looking and performing like new. **Clear Gel** is compatible with all press rollers, and is perfect for cleaning heads. Convenient packaging makes application easier to use than liquid type deglazers.

FEATURES

- Non-abrasive cleaner
- Compatible with all presses
- Non-flammable; non-toxic

BENEFITS

- Safely cleans all rollers and is ideal for daily use. Quickly removes ink and glaze.
- Saves time and money! No need to stock extra calcium removers or deglazers.
- Safe for printers and the environment

Directions: Remove ink from press with roller wash. **SHAKE WELL** and apply a thin bead to roller. Idle press for 2-3 minutes and remove with roller wash.
