

Technical Bulletin #120

## #3464 SM PLUS UNIVERSAL FOUNTAIN SOLUTION

**SM Plus Fountain Solution** is a truly universal fountain solution that works well on all types of metal, silver, and polyester laser plates. **SM Plus Universal Fountain Solution** is highly concentrated and provides excellent protection from alkalinity, and carbonless paper problems. It works exceptionally well in dry climates. **SM Plus** contains special wetting agents that help prevent toning and help ink dry faster. As with our other fountain solutions, **#3464** is alcohol free!

### FEATURES

- Concentrated solution for presses running metal, silver and polyester laser plates
- Special wetting agents
- Compatible with all presses and dampeners

### BENEFITS

**Economical – mix 1:32**  
**One solution does it all! No need to stock additional products.**

**Protects against alkalinity and carbonless paper problems. Improves roll-up time, ink drying and helps eliminate toning. Helps maintain proper pH and conductivity levels.**

**Saves money – no need to stock additional products!**

**Directions:** Mix 1:32 with water. We recommend using distilled or RO water for best results.
