

Technical Bulletin #118

#3457 UNIVERSAL FOUNTAIN SOLUTION

This is one of the most dependable and forgiving fountain solutions ever developed for small presses running metal plates. **Universal Fountain Solution** contains special wetting agents that help prevent problems commonly associated with alkaline paper, and is alcohol free.

FEATURES

- Concentrated solution for presses running metal plates
- Works with all negative and positive metal plates
- Most “forgiving” small press concentrate
- Excellent wetting agents

BENEFITS

- Economical. Dilute 1:15
- Saves money – no need to stock different products
- Wide operating latitude; virtually mistake proof
- Helps prevent toning and other problems caused by alkaline papers

Directions: Mix 1:15 with water. We recommend using distilled or RO water for best results.
